

**COMPUTER SUPPORT STAFF POSITION  
UNAM  
CAMPUS MORELIA-MICHOACAN-MEXICO**

Computer support staff position at the National Autonomous University of Mexico

The Institute of Radioastronomy & Astrophysics of the UNAM (Morelia Campus) invites applications for a support staff position in information technology with an emphasis on WAN/LAN networks. The candidate profile should preferably include:

1. Masters degree or equivalent knowledge and experience in networks and systems administration.
2. At least two years of experience.
3. Knowledge of administration and support of Linux, MacOS and Windows operating systems.
4. Monitoring and management of LAN and WAN computers networks.
5. Scientific programming and database management experience.
6. Knowledge of astronomical software and cloud computing are desirable.

To participate, by 25 June 2018 candidates should send via email to the Academic Secretary of the Institute ([sacad@irya.unam.mx](mailto:sacad@irya.unam.mx)) the following documents:

1. An application letter to take part in the competition for the position
2. A document describing a scheme to monitor and manage the internet access and usage of the IRyA, based on open-source software
3. A document describing a system to dynamically generate web pages that access astronomical data bases and presents the results
4. Complete curriculum vitae
5. Statement of previous experience (no more than 3 pages)
6. Two letters of recommendation

The short-listed candidates will be interviewed by an *ad hoc* Academic Committee, who will select the successful candidate. Review of applications will begin on 26 June 2018.

Please address all inquiries to:
